## ABOUT COURSE

French is one of the most widely spoken languages in the world. If we were to elaborate on the status of French as a foreign language, we could write pages, perhaps entire books but to put in a nutshell, not only is French one of Europe's and the world's most important languages, it is also growing in strength and stature with every passing day. Present on six of the world's seven continents, a vital medium of communication in several European and African nations, the second official language of Canada, the voice of one the world's leading economies, and omnipresent in the sectors of fashion and gastronomy among others- these are just a few reasons why French is an invaluable addition to your CV.
