About us

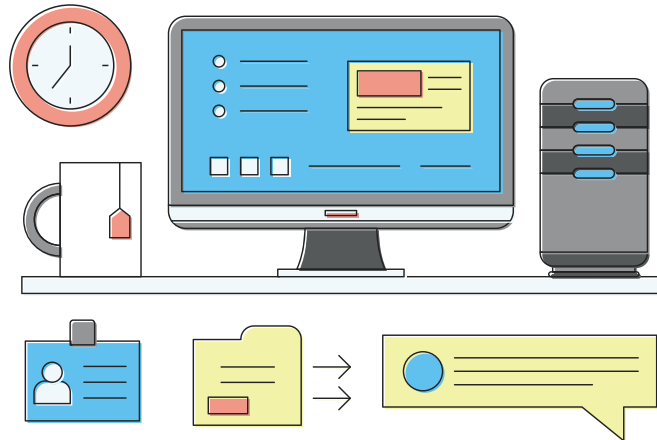

Shree Academy was found in 2012 with the mission of providing best quality Computer Education and Basic & Advanced English to all genres of people. Thousands of students have already got trained professionally and made their career successfully till date. Our organization not only provides the platform to build up a bright professional career in the field of computer and linguistics but also provides the placement opportunities in reputed companies across the globe.

Student's Journey

Our Courses

Basic Computer

Notebook and pen are replaced by a computer nowadays; a good handwriting is replaced by an accurate typing and hence, ABCD is now more famous as QWERTY. All such activities are possible with the help of a single device, i.e. Computer. Computer earlier was used for saving data, but today, it is used for generating, utilizing as well as formatting the same. All such performance is possible if have the right knowledge. Also, this is one of those subjects which have no bar to learn in terms of background, any Working Professional, IT Aspirant, Homemaker or a Student, can learn it without much effort.

Moreover, computer can be considered as a virtual friend with whom one can convey logical feeling as well as personal time without reading a watch. Computer is an instrument where a person can read, write any opinion, fact or information along with listening audios - videos of his interest. To be an influencer of a kind, the voice should also be recorded in the form of speech, song, lecture, tell and many more.

To abbreviate, computer should be learnt to make life easier as every step of our life, it is the minimum instrument which is used.
