ABOUT COURSE

The aim of this 3D animation program is to make the students self-reliant and equip them with the artistic approach, technical knowledge, mastering tools as well as the concepts of animation so they can make a mark in the global world of animation. 2D animations are superficial whereas 3D animations possess some depth. Our programme starts with art and design, They learn basic construction in drawing using Pencil & paper which is their canvas to produce frames that define a sequence which is then moved at a different speed that creates an illusion of movement. Then we introduce various software's & techniques to master the skills of animation. Apart from drawing and character designing, 3D animators deal with modeling, rendering, texture and lighting.

TOPIC COVERED

- » Introduction to 3D Animation
