## About Course

Welcome to the Web Design course, a gateway to the dynamic world of creating compelling and functional websites. This program is designed for individuals eager to master the art of crafting visually appealing and user-friendly online experiences. Participants will explore the principles of layout, typography, and color theory, while also gaining hands-on experience with web design tools and technologies. Through practical projects, students will develop proficiency in translating concepts into responsive and aesthetically pleasing designs. Whether you're a novice or looking to enhance your skills, this course provides the foundation to create impactful and seamlessly navigable websites in the ever-evolving realm of web design.
